

## Sierra Terminology

### Roof Panels

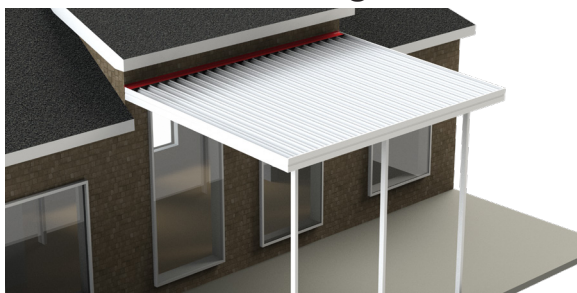

10" Aluminum "V" Style Roof Panels. Roll-formed, snap together construction.

### Gutter/Fascia

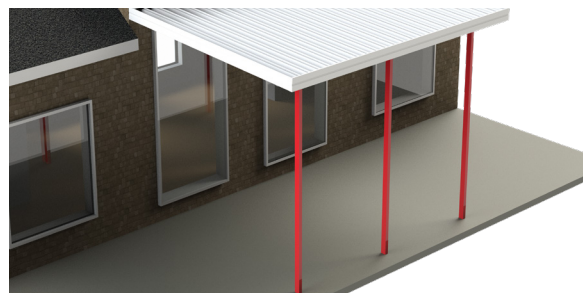

6" Tall Rollformed aluminum, stucco embossed with 3x3" gutter.

### Wall Hanger

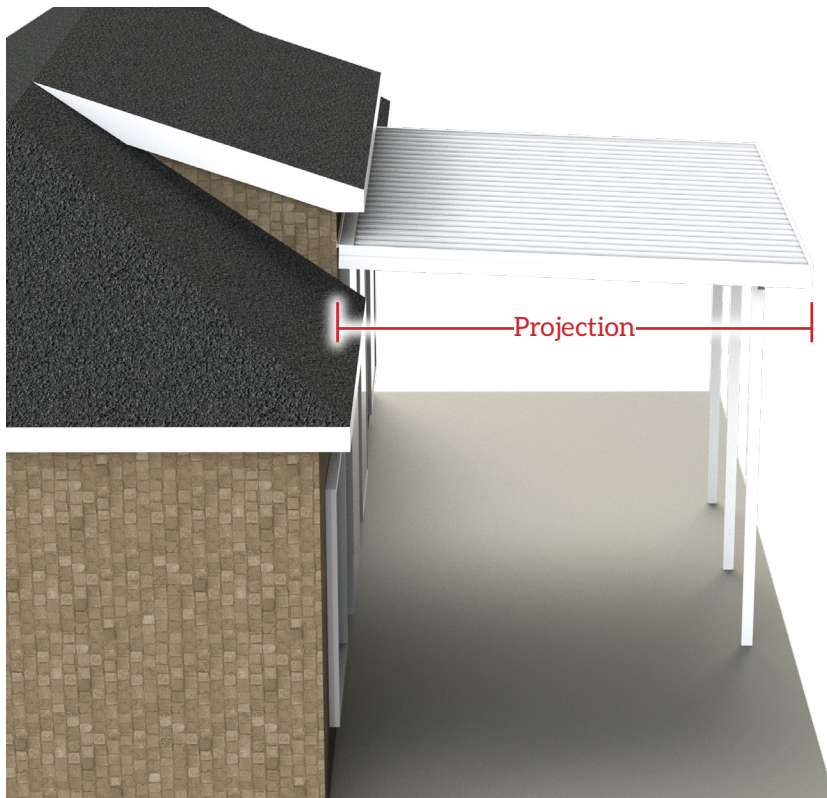

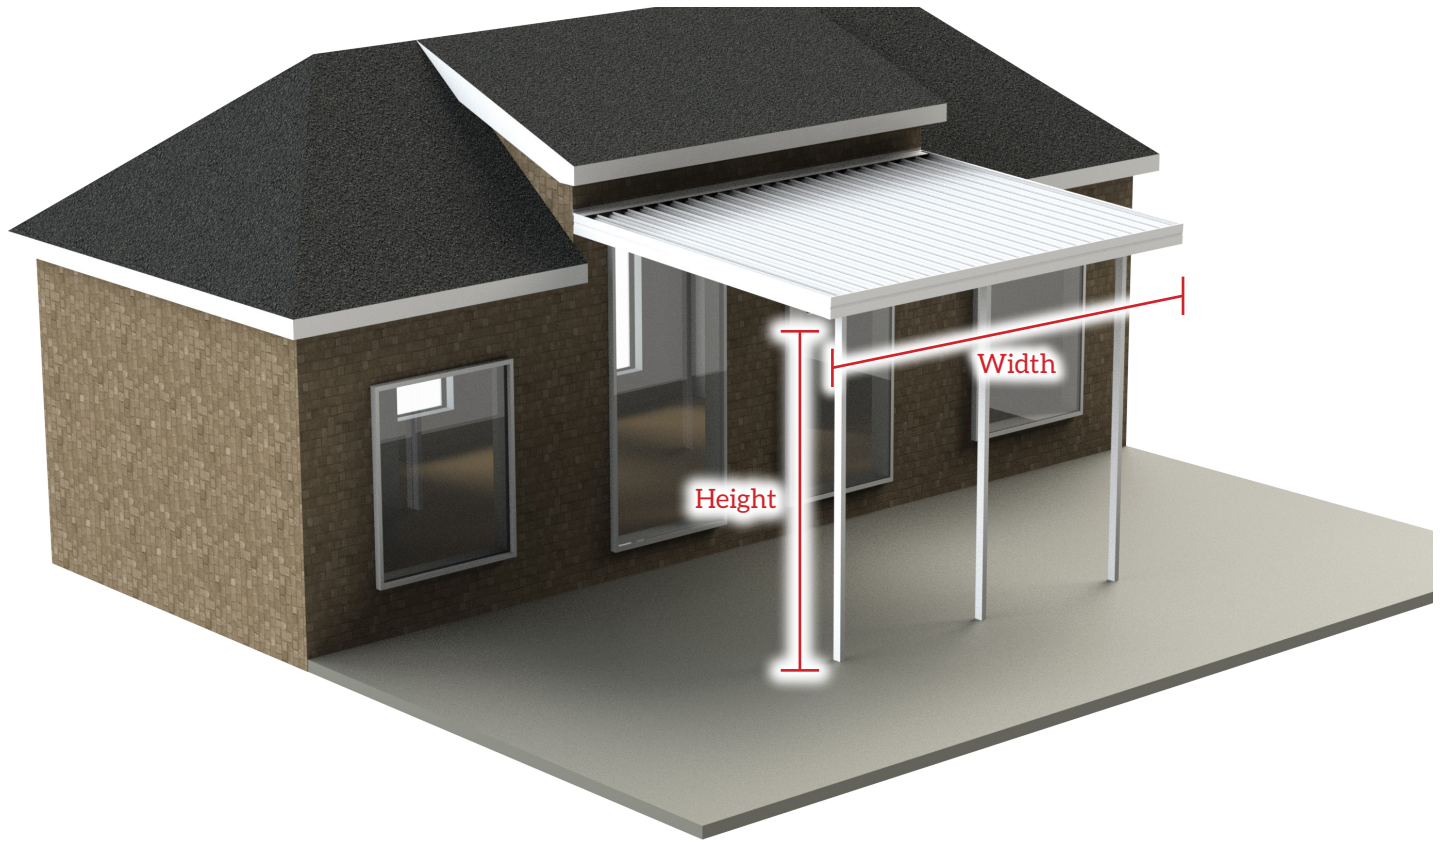

Extruded aluminum 2 piece wall hanger system. Allowing virtually any roof pitch and protects against ground heaving.

### Posts & Header Beam

(Posts) Heavy-Duty 3 x 3" Aluminum tubes that span the height of the unit. (Header Beam) Rollformed "C" Beam 4x2" Galvalume metal.

## Measurement Terminology

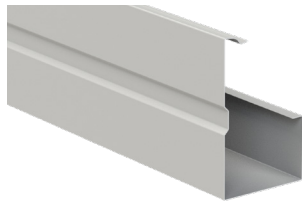

**Height:** Distance from the bottom of the structure to the bottom of header beam.

**Width:** Tip to tip measurement of front gutter/fascia.

**Projection:** Tip to tip measurement of side gutter/fascia.
