## American Fabric Awning

Width\*: 24" - 240", 1" increments

Height of awning

Projection\*: 18" - 42", 1" increments

Sunbrella Fabric #:

Valence Design

To maximize shade and protection for window applications:

- East or west side of house, awning height should cover 65%-75% of window height.
- South side, awning height can be 45%-60% of window height.
- Projection: Recommended to be 50% of window height
- Width: Recommended to be at least 4" more than window width for inside frame.

For door applications:

- Check for available mounting room above door, minimum 2" needed
- Check that outswinging door will not interfere with canopy
